

Percy

air. I know you have been ~~saying~~  
sure we will be able to operate some kind of  
even if it is semi-pro week ends with a night or two  
a week. However we are sitting tight until the man  
power law is passed or shelved. Have you thought any  
more about a team. You should have plenty ballplayers  
working in Norfolk. A big problem is a good manager.  
willie wilie has been back in Newark about a month,  
just as wild as ever.

Dear Percy:

Look to hear from me in a couple days again.  
I hope your hard put off writing you until now, as  
Mercer has just gotten to work on those papers. He  
promised me he would have them ready for you to sign  
the 1<sup>st</sup> of this week. Unless you were just coming  
up and visit at the same time, you had better wait  
until you hear from me again. I will wire you or let  
you know in some way when the papers are ready, so  
you will not have to wait around. He has promised  
me they will be ready by Friday of this week.

I am enclosing the income tax withholding form at the same time, showing you paid \$15.50 through the ballclub. I do hope you have your papers fixed properly so you wont make the mistake Abe and I made with the baseball. You should not have to pay any tax until you get all the money back you have invested.

About the baseball, we are still up in the air. I know you have been reading the papers. I am sure we will be able to operate some kind of game, even if it is semi-pro week ends with a night or two a week. However we are sitting tight until the man power law is passed or shelved. Have you thought any more about a team. You should have plenty ballplayers working in Norfolk. A big problem is a good manager. Willie Wells has been back in Newark about a month, just as wild as ever.

Look to hear from me in a couple days again.  
I hope your business is going good.

Sincerely
